EDUCATION

Shri Ramdeobaba College of Engineering & Management

Bachelor of Computer Science in Data Science (CGPA of 8.25)

Nagpur, India

Nov. 2023 – June. 2026

Government Polytechnic Nagpur

Diploma in Information Technology (Percentage – 88.20)

Nagpur, Maharashtra

Oct. 2020 – Sep. 2023

TECHNICAL SKILLS

Languages: Flutter, Dart, Python, Java, C++, HTML, CSS, JavaScript, C, React

Libraries: TensorFlow, Scikit-Learn, NumPy, Pandas, OpenCV

Tools and Utilities: Jupyter Notebook, VS Code, GitHub, Google Colab, Tableau, PowerBI, Postman, RestAPI

Cloud Databases: MySQL, MongoDB

Core Skills: Web Development, Data Analytics

EXPERIENCE

IT-Networkz

Jul 2023 – Aug 2023

Web Developer Intern

Nagpur, Maharashtra

- Developed applications using OOP, integrated RESTful API's and Firebase for backend, and executed AI models for image processing
- Collaborated in Agile teams, followed SDLC practices, and conducted unit testing using JUnit
- Optimized performance, reducing response time by 20% through debugging, schema design, and real-time data handling.

PROJECTS

Fashion X | NextJs, Nodejs, AWS S3, MongoDB

- It is a machine learning-powered platform that matches users based on their size, height, age, style preferences, and colour choices to enhance personalized fashion recommendations.
- The system leverages user input and advanced algorithms to create accurate fashion pairings, improving the shopping and styling experience.
- It supports real-time interactions, data-driven recommendations and potential marketplace integrations, making it a dynamic solution for personalized fashion discovery.

Facial Emotion Recognition using AI – Driven Interviews | OpenCV, Streamlit, CNN, MobileNet

- Developed an AI-driven interview evaluation system using facial emotion recognition.
- Executed deep learning (CNN) models to classify real-time facial expressions from webcam input.
- Used computer vision techniques for face detection and emotion analysis.
- Trained and validated models on facial emotion datasets to ensure reliable predictions.

ACHIEVEMENTS

Certification: Tata Data Visualization

Certification: Edureka Full Stack Internship Program

Certification: Meta Introduction to Backend Development
